## LETTERS

- Host defense triggers rapid adaptive radiation in experimentally evolving parasites 120  
Sarah E. Bush, Scott M. Villa, Juan C. Altuna, Kevin P. Johnson, Michael D. Shapiro,  
and Dale H. Clayton
- Parallel genetic evolution and speciation from standing variation 129  
Ken A. Thompson, Matthew M. Osmond, and Dolph Schluter
- Genomic selection on breeding time in a wild bird population 142  
Phillip Gienapp, Mario P. L. Calus, Veronika N. Laine, and Marcel E. Visser
- To block or not to block: The adaptive manipulation of plague transmission 152  
Sylvain Gandon, Louise Heitzmann, and Florent Sebbane
- The evolution of stage-specific virulence: Differential selection of parasites in juveniles 162  
Ryosuke Iritani, Elisa Visser, and Mike Boots
- How to make a haploid male 173  
Laura Ross, Nicholas G. Davies, and Andy Gardner
- Conflict within species determines the value of a mutualism between species 185  
Syuan-Jyun Sun, Nicholas P. C. Horrocks, and Rebecca M. Kilner
- Selection for longer lived sperm within ejaculate reduces reproductive ageing in offspring 198  
Ghazal Alavioon, Andrea Cabrera Garcia, Magali LeChatelier, Alexei A. Maklakov, and  
Simone Immler
- Experimentally reduced insulin/IGF-1 signaling in adulthood extends lifespan of parents  
and improves Darwinian fitness of their offspring 207  
Martin I. Lind, Sanjana Ravindran, Zuzana Sekajova, Hanne Carlsson, Andrea Hinas,  
and Alexei A. Maklakov
- Comparative genomics of 10 new *Caenorhabditis* species 217  
Lewis Stevens, Marie-Anne Félix, Toni Beltran, Christian Braendle, Carlos Caurcel,  
Sarah Fausett, David Fitch, Lise Frézal, Charlie Gosse, Taniya Kaur, Karin Kiontke,  
Matthew D. Newton, Luke M. Noble, Aurélien Richaud, Matthew V. Rockman,  
Walter Sudhaus, and Mark Blaxter

## Editorial Board

### Editor in Chief

Jon Slate  
University of Sheffield, UK  
j.slate@sheffield.ac.uk

### Managing Editor

Shayna Holmes  
sholmes2@wiley.com

### Social Media & Communications Editor

Nicola Hemmings  
University of Sheffield, UK  
n.hemmings@sheffield.ac.uk

### Preprint Editor

Max Reuter  
University College London  
m.reuter@ucl.ac.uk

### Associate Editors

#### Lindell Bromham

Australian National University, Australia  
lindell.bromham@anu.edu.au

#### Anne Charmantier

CNRS, Montpellier, France  
anne.charmantier@cefe.cnrs.fr

#### Andy Gardner

University of St. Andrews, UK  
mailto:andy.gardner@st-andrews.ac.uk

#### Zach Gompert

Utah State University, USA  
zach.gompert@usu.edu

#### Anjali Goswami

University College London, UK  
a.goswami@ucl.ac.uk

#### Katrina Lythgoe

University of Oxford, UK  
katrina.lythgoe@zoo.ox.ac.uk

#### Rhonda Snook

Stockholm University, Sweden  
rhonda.snook@zoologi.su.se

#### Stephen Wright

University of Toronto, Canada  
stephen.wright@utoronto.ca

### Aims and Scope

*Evolution Letters* publishes cutting-edge new research in all areas of Evolutionary Biology. Papers should demand rapid publication because they substantially advance the field, are of outstanding clarity and originality, or are of broad interest. Papers that introduce new analytical or methodological frameworks that are likely to be highly influential will also be considered. Opinion and commentary articles on new developments or emerging themes are also encouraged. Traditional reviews will not be considered, as plenty of appropriate forums for these already exist. The Editor-in-Chief and Editorial Board welcome enquiries about other forms of article. *Evolution Letters* is jointly owned by the European Society of Evolutionary Biology (ESEB) and the Society for the Study of Evolution (SSE). Profits from the journal are invested back into the two societies. The journal is online only and entirely open access. The journal has a flexible approach to the format of manuscripts on submission, and will only ask authors to adhere to a house style (see Instructions for Authors) once the manuscript is accepted for publication.

### Open Access and Copyright

All articles published by *Evolution Letters* are fully open access: immediately freely available to read, download and share. All articles are published under the terms of the Creative Commons Attribution License which permits use, distribution and reproduction in any medium, provided the original work is properly cited and allows the commercial use of published articles. Copyright on any research article in a journal published by *Evolution Letters* is retained by the author(s). Authors grant Wiley a license to publish the article and identify itself as the original publisher. Authors also grant any third party the right to use the article freely as long as its integrity is maintained and its original authors, citation details and publisher are identified. Further information about open access license and copyright can be found at <http://www.wileyopenaccess.com/details/content/12f25db4c87/Copyright%E2%80%93License.html>
